But Reaction at Last Wiped Out Earlier Gains.

TIME MONEY WAS EASIER

Some Loans Reported Made Belov Six Per Cent - On Attempt to Take Profits Market Gave Way and Close Irregular.

(By Associated Press.)

**EW YORK, July 28.—The stock market showed the continuing effect of the clearing of the atmosphere, which result-ed from yesterday's and Friday's failures, and the market became quite generally strong. But, the brighter sentiment over the outlook did not hold its full force throughout the day. There was rather a pronounced reaction at the last which wiped out the most important part of the day's gains and took a few of the gain carriers a point or more below last night. New York Central was the gain carriers a point or more below last night. New York Central was the conspicuous leader of the advance, rising at one time 2 1-8 over last night on buying reputed to be of the best character. The sentimental effect on the market of the buying of this stock and of Pennsylvania and the affiliated stocks, as well as of the coslers and other high grade raliroad stocks, was considerable. Atchison suffered most acutely amonast the market leaders, and its drop to 1 5-8 below last night upset the last market and led the whole list downwards. Late in the day, there was indication of a resumption of selling out of collateral on some loans. The huying through commission houses was reported to be better than for many weeks, and was hopefully regarded. But this buying did not follow the market upwards. There was a report of a private settlement between the Union Pacific interest and one of last week's failed firms, looking to the rimport of the collection of th

Call.
Total sales were 636,000 shares.

Wall Street Gossip.

Wall Street Gossip.

(Special to The Times Dispatch.)

NEW YORK, July 28.—The opening of the stock market was firm and cheerful, and all though the commission bonse business was very light, there seemed to be a better feeling round the street. There was some covering, probably for houses which had been compelled to sell stocks to protect themselves against their own customers. The professional element was operating for a further railly.

The strength in New York Central was again a feature, and some very striking rumors were in circulation. One story was that the Vanderbilt interests had become alarmed at the extendity finished and the common street of the street of

account on the June earnings.

THE FIRST HOUR:
The market held fairly well in the dirst hour, sithough the opening strength was in every take market held fairly well in the dirst hour, sithough the opening strength was in every take market might have been hardened to facilitate the market might have been hardened to facilitate liquidation of loans made the larger traders cautious about following the raility. London was a moderate seller early, and the foreign houses reported a good deal of nervounces on the other side over the situation in the far East.

Jacob Field and others were early buyers of railiroad stocks in some quantity.

The strength in Rubber goods seemed to contradict the rumors that there had been any change in the disposition of the Keene holdings.

AROUND NOON, INCLINED TO SELL OFF:
The market was rather inclined to sell off
after 12 o'clock, and there was some ordence of
further landatation, probably representing stock
carried over the brenk. The professionals seemed to have taken profits on stocks bought early
on Monday, and the Waldorf-Astoria crowd at
least was trading for a reaction.
Post and Fings sold something like 20,000

Post and Fings soid something like 20.000 shares of stock round the room in the first hour of so.

There was still some pressure from London in Southern Pecific, probably representing the limits at the property of the limits at the limits and pool stock of the buring of Amalgumated Copper round 43. It is certain that a good deal of the buring of Amalgumated Copper round 43. It is certain that a good deal of stock has been delivered to brokers usually setting for the Rockofeller interest.

exting fur the Rockefeller interest.

EXRLY AFTERNOON TRADING:

The market continued to hold well in the early steroon with a steadily narrowing tendency. The that a mone the larger interests seemed to be that a period of duliness would do a good deal to juste the street's nerves. The larger operators seemed to be acting under a well-defined policy of this kind credited to the principal banking interests.

One of the most satisfactory developments of the day was the evidence that there was quite a respectable sale for a great many stocks for which he the recent past the pools were the only market. This result has, of course, been brought about at a ruinous sacrifice to a number of syndicates, but it is now possible to sell such stocks as lows Central, Chiesgo Terminal, Mexican Central and the smaller industrials in quantity.

There is good reason for believing that the pool in Colorado and Southern has not been forced to let go any of its holdings.

THE CLOSING HOUR: The market weakened very materially in the last hour, and gave evidence of renewed liquidation. There were some professional hammering lawell, but it was successful in catching a num-

COTTON MARKETS.

COTTON MARKETS.

NEW YORK, July 28.—The cotton market opened steady at a decline of 1 point to an advance of 6 points, and the cold crop months—1 July and August—showing marked weakness, most of the time having marked weakness, and to good pressing demand.

There were four sales of July early at 18.10; liter it was offered down to 12.50 with 12.00 bid, and 18.10; and 12.50 closing at 12.75 bid and 12.00 asked. August was no less erratic. Opening at 12.12 it declined to 11.85 and closed at 11.90. The latter positions meantime ruled moderately active. The initial firmsess was the result of better cables than expected, but after the call the better weather and anticlouds that the bureaut report, due at mid-dary market the result of better cables than expected, but after the call the better weather and anticlouds that have the call the better weather and anticlouds that the bureaut report, due at mid-dary market have a materially improved condition, led to rasilizing and some bear pressure. In the control of the showers, by a fresh wave folliquidation on the theory that the bureau did not include the recent rains, and that the government crop report, due on August 3d, would show a condition probably equal to last year's. But after losing a portion of the advance the market was again railled by covering and built support, and closed at within a few points of the best for the day on the new crop options.

The final tone was very steady with the old crop net 20030 points lower and the new net 62 10 points higher. Sales estimated at 160,000 bales were on their way here by special train from Lowell, Mass., for delivery in July.

Spot cotton in good demmal; quotations unchanged.

The future merket opened quiet and strady and within a point or two of yesterday's close. Later, however, it became nervous and excited. This was chiefly due to conflicting opinions as to the tone of the bureau report, which turned out decidedly builish, and on the strength of it prices were bid up to the highest level of the day, September gaining 22 points. The weakpass in New York and Liverpool, however, had a tendency to hold prices down, and the market closed with net lesses of 25 points on July and 21 on August, while the winter months were 668 points higher than at the closing of yesterday. ABSENCE OF RAIN WAS THE FEATURE

Crops and Pastures Would Be Greatly Benefited Thereby.

Section Director E. A. Evans' crop bulle-tin for the week ending July 28th says: Absence or rain marked the week in nearly all sections of the State, while the temperatures, for the most part, were warm during the day and moderate at night. The advance of vegetation under these conditions was generally satisfators and the progress of work in the field excellent. Haymaking and wheel threshing, together with cultivation of outstanding crops, kept farmers busy throughout the week. As a general rule, haying is well along towards completion, and the crops secured have been very good. Fastures are holding they well, and the crops secured have been very good. Fastures are holding they well, the field by rains, though the med of moisture is not belog seriously felt as yet except locally where the land is hard and crusty. A very wood second crop of clover obtains in all sections. The acreage of peanuts put in is about the average, and they are doing very well where thorough cultivation has been had. Scartly of labor in most of the peanut-growing localities has, however, seriously integrated with the proper working of the c.p. Molons are rather late in most sections, but their condition is promising. Forage crops are making good progress, and, in portions of the Valley section, millet is in fine order. Altogether, the week was quite favorable for farming operations.

Winter Wheat—Threshing of this crop has continued without any change of consequence in the previously reported poor conditions of yield and quality. Locally in the Valley division some crops fair in quantity and quality have been secured, but aside from these instances the yields have been, as stated, poor.

Spring Oats—Harvesting of spring oats in those portions of the Valley division where the crop was late was about finished during the week, and there now remains little, if any, of this crop to be gathered. Light yields are senerally reported, though there are a few instances of medium yields.

Corn has had another week of good growing weather, and, except in those cases where cultivation has not been had, is doing very well. Unfavorable planning weather early in the s

JUDGE GRAY RETICENT

Will Not Say Whether He Will Act as Arbitrator in Alabama Trouble.

Arb trator in Alabama Trouble.

(By Associated Press.)

WILMINGTON, DEL., July 28.—Judge George Gray, who was president of the Anthracite Coal Strike Commission, said to-night that he had not yet been officially approached to act as arbitrator in the matter of existing disputes between the mine workers and operators in Alabama. He said he had received numerical telegrams from Alabama requisting him to act as arbitrator, among them being one from the Governor, and others from operators and mine workers. The judge added that he understood that a committee was on the way here to formally ask him to act as arbitrator. This committee, he said, was to have arrived at noon, but up to a late hour to-night they had not reached Wilmington. Judge Gray declined to say what he will do until after he has met the committee, which probably will be to-morrow.

MUTINIS IS GOVERNOR

Indications that Cobos Has Been Deposed in Department of Panama.

Deposed in Department of Panama.

(By Associated Press.)

WASHINGTON, D. C., July 28.—Dr. Herran, Colombion charge d'Affaires here has received a cablegram from Senor Mutinis, governor of Panama, on a matter of business in which incidental reference is made to the arrost of Department officials by General Cobos at Panama, and in which General Cobos is referred to as an "ex-commandant."

The fact that Mutinis sent a cable as governor, on governmental business, indicates to Dr. Herran that General Mutinis is in control of affairs in the Dedicates to Dr. Herran that General Mu-tinis is in control of affairs in the De-partment of Panama, and that General Cobos has been deprived of his com-mand.

Department has received a cable message
from Rear-Admiral Cotton, commanderin-chief of the European squadron, now
on a visit to Fortugal. It was sent from
Lisbon under date of yesterday, and is
as follows:

"Seif, commanding officers and personal
staff, received in special audience by the
King Saturday afternoon: luncheon to
same by King to-day at Cintra, preceding
which were presented to Queen in special audience, the Queen, our minister
and some of the Cabinet ministers present at luncheon. To-morrow night dinnet 200 covers to us by Minister of Marine
at Arsenal. King will visit flagship next
Saturday."

MRS. RICH IS RELEASED

One of the Most Notable Cases In the History of Texas.

History of Texas.

(By Associated Press.)

EL, PASO, TEXAS, July 28.—Mrs. Mattie D. Rich, of Cheego, who was sentenced in 1900 by Mexican courts to fifteen years imprisonment in the penitonitary in Chiuahua for the murder of her husband, John D. Rich, in Juarez, on the night of April 27, 1809, has been released. Her release was ordered on the ground of insufficiency of the evidence. The case of Mrs. Rich was one of the most notable in the history of the Courts of Chiuahua and Texas, as she took refuge on this side of the river after the death of her husband and was extradicted.

ber of offices where such passports could heretofore be vised.
No explanation is offered for the reduction, but it is believed that the purpose is to secure a more rigid scruliny of the character of would-be travelers in Russia.

TOBACCO AND COTTON

Farmer Needs Rain and the Latter is

Very Backward. (By Associated Press.) WASHINGTON, D. C., July 28,—The Weather Bureau's weekly summary of crop conditions affecting cotton and to-

crop conditions affecting cotton and to-bacco is as follows:

"While there has been an improve-ment in cotton, its advancement is ap-parently less decided than in the pre-vious week, especially in the central and portions of the western districts, where rain is generally needed. Good growth is reported from nearly all districts, but the plant continues small, and is from two to four weeks late. Boll weevil in Texas are doing little damage. Much of the crop has received final cultivation.
Tobacco is needing rain a portions of Virginia, North Carolina, and Kentucky, but is mostly doing well elsewhere."

TRELAUNEY TO THE TOMBS

Unable to Furnish Ball and Says He Will Have Stiff Fight. (By Associated Press.)

(By Associated Press.)

NEW YORK, July 28.—Charles H. Treiawney, the Philadelphia publisher who
was arrested at his home in Yonkers
last week on a charge of forgery, was
given a hearing in the Tombs Police
Court to-day and held to awalt trial in
the Court of General Sessions. Ball was
fixed at \$3,000.

Since the arrest of Trelawney, the police have received letters spring that the
prisoner was wanted in other cities on
various charges. Asked if he had anything to say Trelawney this morning
said;
"I shall have to put up a strong fight

said:
"I shall have to put up a strong fight at the trial-or seque!--"
He could not furnish bail and went back to the Tombs.
